

No Ball Games

Website Visitors

Since going live in June 2009 the number of people who have nothing better to do than regularly visit our website has increased steadily.

We have had visitors from twenty countries representing all the continents around the world with our most regular visitors coming from all five nations of the UK and Ireland (look right & below – can you see yourselves?).

Our No Ball Games sign of the Month feature is proving particularly popular so please help us keep that going with more of your photos and stories.

Location of recurring web hits to www.noballgames.eu
Maps and Data by Google Analytics February 2010

Ireland is the country we get the second most regular visits from (hello Irish people) with Sweden coming third (hej svenska folk).

Those that are visiting often please keep doing so. And tell your friends. Send stuff in. Make comments. Etc.
